

PagoYa

Street Team Sales Rep — Onboarding Guide

Puerto Vallarta Field Team | May 2026

1. Welcome to Team PagoYa

Congratulations on joining the PagoYa field team! You are the face of the company in your community.

Your mission is simple: talk to people who pay their utility bills in cash or online — electricity, water, phone — and show them there is an easier, faster way with no waiting in line.

This guide gives you everything you need to make your first sale on day one.

2. What is PagoYa?

PagoYa is a mobile payment platform that lets users pay household bills (CFE, water, Telmex, Izzi, etc.) and top up mobile credit — all from their phone. Works with or without a bank account.

How it works — two paths depending on the user:

Step	Option A — Has bank account / card	Option B — Cash / no bank account
1. Register	Open pagoyamx.com/register . Enter phone number. Confirm via WhatsApp verification code. Done in 2 minutes.	Same — open pagoyamx.com/register . Enter phone number. Confirm via WhatsApp code.
2. Load balance	Pay directly with debit or credit card in the app — no OXXO trip needed.	Go to any OXXO store. Show the barcode generated in the app. Pay cash. Min \$50 MXN.
3. Pay the bill	Select the service, enter account number, confirm. Payment processes in seconds.	Same — select service, enter account number, confirm. Payment processes in seconds.
4. Receipt	Confirmation + receipt sent via WhatsApp instantly.	Same — confirmation + receipt via WhatsApp instantly.

Key fact: Flat \$15 MXN fee per transaction. No monthly fee. No subscription. No surprises.

3. Services PagoYa Can Pay

Category	Examples
Electricity	CFE (all of Mexico)
Landline / Internet	Telmex, Izzi, Totalplay, Megacable, Sky
Mobile top-ups	Telcel, AT&T, Movistar
Water	Selected municipal utilities
26+ services total	Gas, pay-TV, and more in the catalog

4. Your Role as a Field Rep

Your job is to identify prospects and guide them through the registration process. You are not a collector or a technician — you are an advisor helping people save time and avoid lines.

Who to talk to:

- People heading to OXXO or convenience stores to pay bills in cash
- People who pay their bills online but find it frustrating or slow
- Small business owners who pay business utility bills
- Older adults who have a phone but are not comfortable with banking apps
- Workers in markets, restaurants, and service industry who need quick mobile top-ups

What you do NOT do:

- You do not handle customer money — PagoYa never gives you cash or asks you to collect it
- You are not responsible for processing payments — the app does everything
- You do not make promises about timelines you cannot guarantee

5. Puerto Vallarta Target Zones

Focus your time in neighborhoods with high bill-pay activity, high foot traffic, and a mix of banked and unbanked residents. PVR is more banked than CDMX colonias — lead with the convenience angle, not just the 'no bank account needed' angle.

Zone / Neighborhood	Why It Works	Best Time
---------------------	--------------	-----------

Zona Romántica / Col. E. Zapata	Highest density of workers, renters, small business owners. Many pay CFE and Telmex monthly. High foot traffic on Basilio Badillo and Insurgentes.	10am – 2pm
5 de Diciembre	Mix of local families and digital nomads. Many unbanked and semi-banked residents. Close to market areas with high cash usage.	9am – 1pm
Versalles	Business district. Workers paying utilities at lunch. Service industry employees. Taquería and abarrotes strip has high dwell time.	12pm – 3pm
Pitillal	Densely populated local neighborhood. Very low banking penetration. High cash economy. Strongest underbanked use case in PV.	9am – 12pm
Fluvial Vallarta	Large residential colonia, many families. Mix of banked and unbanked. Multiple OXXO locations nearby — easy to show the deposit flow.	4pm – 7pm
Col. Lázaro Cárdenas	Working-class residential. High proportion of CFE, Telmex, and water bill payers. Low app literacy — go slowly, demo patiently.	Morning
Marina Vallarta (workers)	Hotel and marina employees. Banked users who still find bill pay friction frustrating. Card payment pitch works best here.	Early morning / after shift
Mercado Río Cuale	Vendors, stall owners, market workers. Cash-first economy. Strong OXXO top-up use case. Many pay Telcel recargas weekly.	8am – 11am

Pitillal and Zona Romántica are your highest-priority zones. Start there first week.

6. Outreach Methods

PVR has a mix of street outreach, market presence, and WhatsApp follow-up as your primary channels. Use all of them.

Method	How to Use It	Best For
Street walk — SE RENTA zones	Walk streets with high 'Se Renta' signage. Talk to anyone entering/exiting tiendas, waiting at bus stops, or paying at OXXO.	Unbanked + semi-banked users
OXXO entrance / exit	Position near the door of high-traffic OXXOs during morning bill-pay rush (9–11am). Show users there is a faster way.	Cash users already in the habit
Mercados and tianguis	Approach vendors and shoppers. Demo on your phone. Leave flyers with QR. Lunch hour best.	Informal economy workers

Taquería / abarrotes strip	Workers on break. Short attention, so lead with the one-liner: '\$15 pesos, sin filas, desde tu celular.'	Service industry employees
WhatsApp follow-up	If they don't register on the spot, ask for their number and send: 'Aquí el link que te comenté: pagoyamx.com — sin descargar nada.'	Warm leads who showed interest
QR flyer drop	Leave printed flyers at abarrotes, papelerías, lavandería waiting areas, and doctor offices. QR goes to pagoyamx.com.	Passive awareness in target zones
Referral ask	After every registration: 'Conoces a alguien más que pague luz o Telmex en efectivo?' One referral per new user averages 40% conversion.	Expanding warm network

7. How to Do a 5-Minute Demo

Practice this flow until you can do it from memory before going into the field.

Step 1 — Quick greeting (30 sec)

"Hi, let me introduce you to PagoYa — an app to pay your electricity bill or top up your phone without waiting in line. Takes 2 minutes to set up. Can I show you?"

Step 2 — Ask one qualifying question (15 sec)

"Do you have a bank account or debit card, or do you prefer to pay in cash?"

This tells you which path to show them. Both paths register the same way.

Step 3 — Show the app (60 sec)

Open pagoyamx.com on your phone. Walk through the registration screen and show the payment flow relevant to them — card payment for banked users, OXXO barcode for cash users.

Step 4 — The cost (30 sec)

"The fee is a flat \$15 pesos per payment. No monthly charge. If you pay your CFE bill once a month, that's only \$15 pesos to never wait in line again."

Step 5 — Close (60 sec)

"Can I register you now, or would you prefer I leave you a card? Registration takes 2 minutes and is completely free."

Step 6 — Follow-up

If they don't register on the spot, get their number and send via WhatsApp: pagoyamx.com

Your main tool: pagoyamx.com — works on any phone with internet. Nothing to download.

8. How to Register a User

Registration is 100% free and the same for banked and unbanked users. Follow these steps:

1. Open pagoyamx.com/register on the customer's phone (or yours to demonstrate).
2. The customer enters their mobile number.
3. They confirm with a verification code sent via WhatsApp.
4. Done — they now have a PagoYa wallet.

Next step depends on user type:

Has debit/credit card	Has cash only
They can add their card in the app and pay bills immediately — no OXXO trip needed.	Direct them to any OXXO. Show them the 'Deposit at OXXO' button. They can load as little as \$50 MXN to start.

Tip: If they can't register right now, share pagoyamx.com via WhatsApp and follow up the next day.

9. Handling Common Objections

Customer says...	You say...
<i>"I already have a bank account"</i>	"Even better — you can pay directly with your card in the app. No need to go to OXXO at all. Just register and pay from your phone."
<i>"I don't have a bank account or card"</i>	"No problem — PagoYa works without one. Just go to any OXXO with cash, get a barcode from the app, and deposit. Done."
<i>"What if I get overcharged?"</i>	"The fee is always a flat \$15 MXN and it's shown before you confirm. No surprises, ever."

"I don't trust giving out my info"	"We only ask for your phone number. No CURP, no RFC, no bank details."
"What if my payment goes wrong?"	"Every payment gets a confirmation folio. Support is at soporte@pagoyamx.com."
"I already pay at OXXO directly"	"With PagoYa you do it from your phone — no line at the register. Load once, pay anytime."
"I don't know how to use apps"	"It's a website, not an app — nothing to download. If you can send a WhatsApp, you can use PagoYa."
"Can I pay my rent with this?"	"Yes — we have a separate platform just for rent payments called PagoSeguro. Go to pagoseguromx.com or find it linked from pagoyamx.com. Same idea, built specifically for landlords and tenants."

10. Suggested Daily Targets (Launch Phase)

Work in high-OXXO-density, high foot-traffic zones. Morning is best for market workers and OXXO users. Afternoon for service industry workers on break.

Metric	Minimum Goal	Ideal Goal
People approached	20	40+
Demos completed	8	15+
Registrations	2	5+
WhatsApp links shared	10	20+

11. Key Facts to Know by Heart

- **Fee:** \$15 MXN flat per transaction
- **Balance loading:** Any OXXO store in Mexico (cash users)
- **Card payment:** Available in-app for banked users — no OXXO needed
- **Minimum deposit:** \$50 MXN
- **Credit time:** Minutes in most cases (max 24 hrs for OXXO cash)
- **User support:** soporte@pagoyamx.com
- **Website:** pagoyamx.com
- **Rent payments:** pagoseguromx.com (also linked from pagoyamx.com homepage)

12. Do's and Don'ts

DO	DON'T
Be honest about costs (\$15 MXN fee)	Promise features that don't exist in the app
Ask if they're banked or cash-first before starting demo	Assume everyone needs OXXO — many in PVR have cards
Show the app on your phone if customer has no internet	Accept money from customers under any circumstance
Share the link via WhatsApp if they don't register on the spot	Give your personal number as official tech support
Follow up on leads who didn't complete registration	Pressure or badger anyone who is clearly not interested
Report your daily activity (registrations, zones, feedback)	Share internal or other users' personal data
Stay friendly, presentable, and respectful	Operate in another rep's zone without coordination

13. Support Materials

- Business cards with QR code linking to pagoyamx.com
- Informational flyers — printed and digital (QR leads directly to registration)
- Access to the field team WhatsApp group
- This onboarding guide in digital format
- Demo account in the app to walk through the full payment flow

14. Contact & Support

For any operational question, incident report, or question about a customer:

- Email: soporte@pagoyamx.com
- Website: pagoyamx.com
- Field team WhatsApp group (your coordinator will add you when you onboard)

Important: If a user makes a formal complaint, do NOT try to handle it yourself. Escalate immediately to soporte@pagoyamx.com with the user's name and a description of the issue.
