

PagoYa

Street Team Sales Rep — Onboarding Guide

Puerto Vallarta & Riviera Nayarit Field Team

Version 4.0 | August 2026 | INTERNAL — Do not distribute to customers

PagoYa Technologies SA de CV | pagoyamx.com

■ What's New in v4 (August 2026)

- Fee corrected: **\$25 MXN** per transaction (was incorrectly listed as \$15 MXN in v3)
- **\$150 MXN signup bonus** added — your most powerful sales pitch
- **Paula AI assistant** section added (every user gets her free via WhatsApp)
- Territory expanded: **Nayarit municipalities** now open for registration
- ■■ Water bill limitation for Nayarit reps documented
- **Pay structure section** added (was missing from v3)
- **Regional Lead / Field Director** role defined
- Company name corrected: **PagoYa Technologies SA de CV**
- Service catalog updated: **50+ services** (was listed as 26+)

1. Welcome to Team PagoYa

Congratulations on joining the PagoYa field team. You are the face of the company in your community.

Your mission: talk to people who pay utility bills in cash or online — electricity, water, phone — and show them there is an easier, faster way with no waiting in line.

Three things to know before your first day in the field:

- The platform fee is **\$25 MXN per transaction** — flat, no hidden charges, shown before the user confirms.
- Every new user receives a **\$150 MXN signup bonus** credited to their wallet — this is your most powerful opening pitch.
- Every user also gets **Paula**, PagoYa's AI payment assistant on WhatsApp, free. She sends reminders, helps with payments, and answers questions automatically.

✓ *This guide gives you everything you need to make your first sale on day one. Read it, practise the demo script, and know your territory zone.*

2. What is PagoYa?

PagoYa is a mobile payment platform that lets users pay household bills (CFE, water, Telmex, Izzi, etc.) and top up mobile credit — all from their phone. Works with or without a bank account.

How it works:

Step	Option A — Has bank account / card	Option B — Cash / no bank account
1. Register	Open pagoyamx.com/register . Enter name, phone number, city, and colonia. Confirm via WhatsApp verification code. Done in 2 minutes.	Same — open pagoyamx.com/register . Enter name, phone, city, colonia. Confirm via WhatsApp code.
2. Load balance	Pay directly with debit or credit card in the app — no OXXO trip needed.	Go to any OXXO store. Show the barcode generated in the app. Pay cash. Min \$50 MXN.
3. Pay the bill	Select the service, enter account number, confirm. Payment processes in seconds.	Same — select service, enter account number, confirm. Payment processes in seconds.
4. Receipt + Bonus	Confirmation + receipt sent via WhatsApp. \$150 MXN bonus credited on first payment.	Same — confirmation + receipt via WhatsApp. \$150 MXN bonus credited on first payment.

✓ *Key facts: Flat **\$25 MXN fee** per transaction. No monthly fee. No subscription. No surprises. **\$150 MXN signup bonus** credited to wallet on first payment.*

3. Services PagoYa Can Pay

Category	Examples
Electricity	CFE (all of Mexico)
Landline / Internet	Telmex, Izzi, Totalplay, Megacable, Sky, Dish, Maxcom, Starlink
Mobile top-ups	Telcel, AT&T, Movistar — multiple denominations (\$10–\$200)
Water	SIAPA Jalisco (Guadalajara area), SEAPAL Vallarta (Puerto Vallarta) ■■■ Nayarit water (CAPA) NOT available — see note below
Gift cards	Netflix, Spotify, Google Play, Xbox, Amazon — fixed denominations
50+ services total	Gas, streaming, pay-TV, and more in the full catalog

■■ NAYARIT WATER BILLS — IMPORTANT FOR RIVIERA NAYARIT REPS: The Nayarit municipal water utility (CAPA) is NOT currently available in the PagoYa catalog. Do NOT promise Nayarit water bill payments. CFE, Telmex, mobile top-ups, and all national services work normally in Nayarit. Water coverage is on the roadmap.

4. Your Role as a Field Rep

Your job is to identify prospects and guide them through registration. You are an advisor helping people save time and avoid lines — not a collector or technician.

Who to talk to:

- People heading to OXXO or convenience stores to pay bills in cash
- People who pay bills online but find it frustrating or slow
- Small business owners who pay business utility bills
- Older adults who have a phone but are not comfortable with banking apps
- Workers in markets, restaurants, and service industry who need quick mobile top-ups

What you do NOT do:

- You do not handle customer money — PagoYa never gives you cash or asks you to collect it
- You are not responsible for processing payments — the app does everything
- You do not make promises about features not in the app or timelines you cannot guarantee

5. Territory Coverage

PagoYa is now open for registration across Puerto Vallarta (Jalisco) and Riviera Nayarit. Both regions are active. Operate in your assigned zone only and coordinate with your Regional Lead before entering a new area.

Puerto Vallarta Zones

Zone / Neighborhood	Why It Works	Best Time
Zona Romántica / Col. E. Zapata	Highest density of workers, renters, small business owners. Many pay CFE and Telmex monthly. High foot traffic on Basilio Badillo and Insurgentes.	10am – 2pm
5 de Diciembre	Mix of local families and digital nomads. Many unbanked and semi-banked residents. Close to market areas with high cash usage.	9am – 1pm
Versalles	Business district. Workers paying utilities at lunch. Service industry employees. Taquería and abarrotes strip has high dwell time.	12pm – 3pm
Pitillal	Densely populated local neighborhood. Very low banking penetration. High cash economy. Strongest underbanked use case in PV.	9am – 12pm
Fluvial Vallarta	Large residential colonia, many families. Mix of banked and unbanked. Multiple OXXO locations nearby — easy to show the deposit flow.	4pm – 7pm
Col. Lázaro Cárdenas	Working-class residential. High proportion of CFE, Telmex, and water bill payers. Low app literacy — go slowly, demo patiently.	Morning
Marina Vallarta (workers)	Hotel and marina employees. Banked users who find bill pay friction frustrating. Card payment pitch works best here.	Early morning / after shift

Zone / Neighborhood	Why It Works	Best Time
Mercado Río Cuale	Vendors, stall owners, market workers. Cash-first economy. Strong OXXO top-up use case. Many pay Telcel recargas weekly.	8am – 11am

✓ *Pitillal and Zona Romántica are your highest-priority PV zones. Start there in your first week.*

Riviera Nayarit Zones — Open August 2026

Zone / Municipality	Why It Works	Best Time	Water Bills?
Bahía de Banderas (Mezcales, Valle de Banderas)	Large residential municipality. Mix of local workers and new residents. Strong CFE, Telmex, and mobile top-up use case.	9am – 1pm	■■ NO CAPA not available
Bucerías	High-traffic town centre. Mix of expats and local workers. Many pay CFE and internet bills. OXXO nearby for cash loading.	9am – 12pm	■■ NO CAPA not available
La Cruz de Huanacaxtle	Marina workers, local fishing community. Growing expat population. Strong card-payment pitch for banked marina employees.	Morning / early afternoon	■■ NO CAPA not available
Sayulita	Tourist-heavy town. Mix of seasonal workers and local residents. Mobile top-ups and Telcel recargas are strong here.	10am – 2pm	■■ NO CAPA not available
Nuevo Vallarta / Flamingos	Resort corridor workers. Hotel and hospitality employees. Banked users — lead with card payment convenience pitch.	Early morning / after shift	■■ NO CAPA not available
Tepic (city centre)	State capital. Larger population, higher density. CFE, Telmex, mobile top-ups all strong. Less competitive market than PV.	9am – 1pm	■■ NO CAPA not available

■■ **WATER BILLS IN NAYARIT: Do NOT pitch water bill payment to Nayarit residents. CAPA (the Nayarit water authority) is not in the catalog. Lead with CFE, Telmex, and mobile top-ups — all work normally. Your coordinator will notify you when Nayarit water coverage goes live.**

6. Outreach Methods

Method	How to Use It	Best For
Street walk — SE RENTA zones	Walk streets with high 'Se Renta' signage. Talk to anyone entering/exiting tiendas, waiting at bus stops, or paying at OXXO.	Unbanked + semi-banked users
OXXO entrance / exit	Position near the door during morning bill-pay rush (9–11am). Show users there is a faster way that also gives them \$150 pesos.	Cash users already in the habit
Mercados and tianguis	Approach vendors and shoppers. Demo on your phone. Leave flyers with QR. Lunch hour best.	Informal economy workers
Taquería / abarrotes strip	Workers on break. Short attention — lead with: '\$25 pesos, sin filas, desde tu celular. Y te damos \$150 de bono al registrarte.'	Service industry employees

Method	How to Use It	Best For
WhatsApp follow-up	If they don't register on the spot: 'Aquí el link: pagoyamx.com — sin descargar nada. Recibes \$150 MXN de bono.'	Warm leads who showed interest
QR flyer drop	Leave printed flyers at abarrotes, papelerías, lavandería waiting areas, and doctor offices.	Passive awareness in target zones
Referral ask	After every registration: '¿Conoces a alguien más que pague luz o Telmex en efectivo?' One referral per user averages 40% conversion.	Expanding warm network

7. How to Do a 5-Minute Demo

Practise this flow until you can do it from memory before going into the field.

Step 1 — Quick greeting (30 sec)

"Hi, let me introduce you to PagoYa — pay your electricity bill or top up your phone without waiting in line. You get \$150 pesos just for signing up. Takes 2 minutes. Can I show you?"

Step 2 — Ask one qualifying question (15 sec)

"Do you have a bank account or debit card, or do you prefer to pay in cash?" This tells you which path to show. Both paths register the same way.

Step 3 — Show the app (60 sec)

Open pagoyamx.com on your phone. Walk through the registration screen. Show the card payment flow for banked users, or the OXXO barcode flow for cash users.

Step 4 — The cost and the bonus (30 sec)

"The fee is a flat \$25 pesos per payment — no monthly charge. And the \$150 peso bonus you got for signing up covers it six times over on your first payments."

Step 5 — Paula (20 sec)

"You also get Paula — a personal assistant on WhatsApp. She reminds you when bills are due, helps you pay them, and answers your questions. It's included, completely free."

Step 6 — Close (60 sec)

"Can I register you now, or would you prefer I send you the link? Registration takes 2 minutes and the \$150 pesos goes straight to your account."

Step 7 — Follow-up

If they don't register on the spot, get their number and send the link with a reminder about the \$150 MXN bonus.

✓ Your main tool: **pagoyamx.com** — works on any phone with internet. Nothing to download.

8. How to Register a User

Registration is 100% free and the same for banked and unbanked users. Follow these steps:

1. Open pagoyamx.com/register on the customer's phone (or yours to demonstrate).
2. The customer enters their name, mobile number, city, and colonia.
3. They confirm with a verification code sent via WhatsApp.
4. They tick the **WhatsApp opt-in checkbox** to receive confirmations and reminders from Paula.
5. Done — they now have a PagoYa wallet with **\$150 MXN bonus** ready for their first payment.

Has debit / credit card	Has cash only
They can add their card in the app and pay bills immediately — no OXXO trip needed.	Direct them to any OXXO. Show the 'Deposit at OXXO' button. Minimum \$50 MXN to start.

✓ *Tip: If they can't register right now, share the link via WhatsApp and mention the \$150 MXN bonus — it creates urgency.*

9. Handling Common Objections

Customer says...	You say...
"I already have a bank account"	"Even better — you can pay directly with your card in the app. No OXXO trip. And you still get the \$150 pesos just for signing up."
"I don't have a bank account or card"	"No problem — PagoYa works without one. Just go to any OXXO with cash, get a barcode from the app, and deposit. Done."
"What if I get overcharged?"	"The fee is always a flat \$25 MXN and it's shown before you confirm. No surprises, ever."
"I don't trust giving out my info"	"We only ask for your name, phone number, city, and colonia to sign up. No bank details required."
"What if my payment goes wrong?"	"Every payment gets a confirmation folio. Support is at soporte@pagoyamx.com and Paula on WhatsApp helps immediately."
"I already pay at OXXO directly"	"With PagoYa you do it from your phone — no line at the register. Load once, pay anytime. Plus \$150 pesos free."
"I don't know how to use apps"	"It's a website, not an app — nothing to download. If you can send a WhatsApp, you can use PagoYa."
"Can I pay my water bill in Nayarit?"	"CFE, Telmex, and mobile top-ups all work in Nayarit. Water utilities in Nayarit are being added — I'll let you know when it's live."
"Can I pay my rent with this?"	"Yes — there's a separate platform for rent called PagoSeguro at pagoseguromx.com, linked from pagoyamx.com. Same idea, built for landlords and tenants."

10. Pay Structure

PagoYa pays commissions based on the activity your registered users generate — not on registrations alone. This aligns your incentive with genuine customer activation.

Field Rep

Event	Your Earnings	Hold Period	Notes
User completes registration	\$0	—	Registration is free for users; no per-signup rep commission.
User makes a confirmed bill payment	\$5 MXN	7 days	Per payment. Tracks automatically to your rep code.
Monthly performance bonus	TBD	—	Bonus tier for high-performing reps — confirm amount with your coordinator.

How commissions are tracked:

- Every user you register is linked to your unique rep code (e.g. ENG-01).
- When any user you recruited makes a bill payment, \$5 MXN is logged automatically against your code.
- Commissions are held 7 days (payment reversal window), then marked payable.
- Your coordinator reviews totals weekly. Payout method — confirm with your coordinator.

✓ *Example: You recruit 20 users in a month. 10 of them each make 4 payments = 40 payments × \$5 = **\$200 MXN commission** that month. Active users who pay regularly compound your earnings over time.*

Regional Lead / Field Director

Role	Base Commission	Team Override	Responsibilities
Regional Lead / Field Director	\$5 MXN per payment from own recruits (same as field rep)	\$2 MXN per confirmed payment from each rep on your team (proposed — pending final confirmation)	Zone coordination, daily rep reporting, quality control, escalation point for field issues

■■ **REGIONAL LEAD STRUCTURE — PENDING CONFIRMATION:** The \$2 MXN team override above is a proposed starting rate and has not been formally approved. Your coordinator will confirm the final override rate, team size, and reporting cadence before your first week. The base \$5 MXN/payment commission is active and confirmed in the system.

Regional Lead additional responsibilities:

- Daily check-ins with each rep in your zone (WhatsApp group or in-person)
- Reviewing registration quality — flag duplicate or suspicious accounts immediately
- Reporting aggregate zone metrics to HQ weekly: registrations, payments, issues
- First escalation point for customer complaints — reps must not handle complaints directly
- Onboarding new reps added to the region and ensuring they have materials

11. Paula — Your User's AI Assistant

Paula is PagoYa's AI-powered payment assistant available to every user free via WhatsApp. She proactively reaches out, reminds users when bills may be due, and helps them complete payments.

What Paula does for your users:

- Sends a personal welcome message after registration
- Guides new users through their first payment step by step
- Reminds users when bills are likely due based on their payment history
- Answers questions about balance, payments, and services via WhatsApp
- Escalates urgent issues to the support team automatically

Why this matters for your pitch:

- Paula makes PagoYa stickier than a normal payment app — users who interact with her stay active longer
- Use it in your close: 'You'll get a personal assistant on WhatsApp who reminds you when your CFE bill is coming up — completely free'
- Users must opt in to WhatsApp messages during registration — make sure they tick the consent checkbox

■■ **Paula only activates for users who give WhatsApp consent at registration. Walk users through the registration screen and confirm they check the WhatsApp opt-in box. Without it, Paula cannot contact them and they lose the proactive reminders that drive repeat payments.**

12. Suggested Daily Targets (Launch Phase)

Metric	Minimum Goal	Ideal Goal
People approached	20	40+
Demos completed	8	15+
Registrations	2	5+
WhatsApp links shared	10	20+

13. Key Facts to Know by Heart

Fact	Value
Platform fee	\$25 MXN flat per transaction — shown before confirmation
Signup bonus	\$150 MXN credited to wallet — unlocked on first payment
Minimum OXXO deposit	\$50 MXN
Balance loading (card)	In-app — instant, no OXXO needed
Credit time (OXXO cash)	Minutes in most cases (max 24 hrs)
Services available	50+ including CFE, Telmex, Izzi, Telcel, AT&T, Netflix, Google Play, Starlink, and more
Water bills — PV	✓ SIAPA Jalisco (Guadalajara) + SEAPAL Vallarta available
Water bills — Nayarit	■■ NOT available (CAPA not in catalog — coming soon)
Your commission	\$5 MXN per confirmed bill payment by your users (7-day hold)
Paula AI assistant	Free for every user on WhatsApp — user must opt in at registration
User support	soporte@pagoyamx.com — always escalate, never handle complaints yourself
Website	pagoyamx.com
Rent payments	pagoseguromx.com (linked from pagoyamx.com homepage)

14. Do's and Don'ts

DO ✓	DON'T ✗
Be honest about costs (\$25 MXN fee)	Quote \$15 MXN — that fee is incorrect and out of date
Lead with the \$150 MXN bonus — it's your strongest opener	Promise features that don't exist in the app
Ask if they're banked or cash-first before starting demo	Assume everyone needs OXXO — many in PVR and Nayarit have cards
Confirm users tick the WhatsApp opt-in checkbox during registration	Skip the consent step — Paula cannot contact the user without it
Show the app on your phone if customer has no internet	Accept money from customers under any circumstance
Share the link via WhatsApp if they don't register on the spot	Give your personal number as official tech support
Follow up on warm leads who didn't complete registration	Pressure or badger anyone who is clearly not interested

DO ✓	DON'T ✗
Report your daily activity to your Regional Lead	Share internal or other users' personal data
Operate only in your assigned territory zone	Operate in another rep's zone without coordination
Escalate all complaints immediately to soporte@pagoyamx.com	Try to handle customer disputes yourself
Tell Nayarit users that water bills are coming soon	Promise Nayarit water bill payment — CAPA is not in the catalog yet

15. Support Materials

- Business cards with QR code linking to pagoyamx.com
- Informational flyers — printed and digital (QR leads directly to registration)
- Access to the field team WhatsApp group (your coordinator will add you at onboarding)
- This onboarding guide in digital format
- Demo account in the app to walk through the full payment flow
- Zone map with assigned territory boundaries (provided by your Regional Lead)

16. Contact & Support

Contact	Use For
soporte@pagoyamx.com	Customer complaints, user issues, escalations
pagoyamx.com	Registration, all user-facing transactions
pagoseguromx.com	Rent payment questions
Field team WhatsApp group	Daily rep activity reports, zone coordination, material requests
Your Regional Lead	Zone assignments, commission questions, performance issues

■ ■ If a user makes a formal complaint, do NOT try to handle it yourself. Escalate immediately to soporte@pagoyamx.com with the user's phone number (last 4 digits only) and a description of the issue. Do not share users' full phone numbers or personal details via the field team WhatsApp group.
