

PagoYa

Mexico's WhatsApp-first mobile wallet for unbanked users

pagoyamx.com

Pay any bill in 2 minutes. No bank account needed.

PagoYa lets unbanked Mexicans pay CFE, Telmex, Izzi, OXXO, gas, water, and 30+ other billers directly from WhatsApp or our mobile app. Users load their wallet via OXXO cash or SPEI bank transfer, then pay any bill instantly -- no card, no branch, no paperwork.

\$25 MXN

Flat fee
per payment

The Problem

- 57M Mexicans are unbanked -- invisible to traditional finance
- Paying a CFE or Telmex bill means a bus ride to OXXO and a cash queue
- BNPL for essential services does not exist for this segment
- No payment history = no credit score = no access to loans or insurance

Our Solution

- WhatsApp chatbot + mobile app: pay any bill in 2 minutes
- Load wallet via OXXO cash or SPEI -- zero bank account required
- PagoYa Trust Index (PTI): 7-dimension credit score built from payment behavior
- \$150 MXN sign-up bonus drives rapid activation

BNPL Partnership Opportunity

- Bill payments are recurring & predictable -- lower risk than e-commerce
- Avg. bill size \$400-\$1,500 MXN: squarely in BNPL territory
- PagoYa bears zero credit risk -- Kueski approves, settles, collects
- PTI score available as supplemental underwriting signal via API
- Distribution fee per activated loan -- standard rev-share model
- Net-new segment: unbanked Mexicans not reachable via Amazon or Adidas

Active billers:

CFE * Telmex * Izzi * Telcel * AT&T * OXXO * Movistar * Ecogas * Naturgy * Mexicana de Gas * Infonavit * S.

PagoYa Trust Index (PTI) -- Our Underwriting Moat

7-dimension score (0-100): KYC * payment streak * biller diversity * missions * balance * load/spend ratio * account age
Updated monthly. Available as API signal for partner underwriting.
